

The Vagina Monologues

MYTH #1

The play empowers and liberates women

False. The Vagina Monologues is a lie. It doesn't empower women with its message that women's identity and image are wrapped up in sexual organs. True empowerment lies in the heart, soul, and mind.

Consider the monologue about a successful tax attorney who leaves her career to become a lesbian dominatrix prostitute, specializing in the use of whips, handcuffs, and ropes.

Liberating, or ironically violent?
